

Halsey, Lilith ft. SUGA of BTS (Diablo IV Anthem)

The more that you have
The more that they take

Well, I'm perfection when it comes
indiscretion
Might fuck around and just succumb to my
aggression
I taste blood and it's turned to an obsession
Baby, I'm confessin', yeah
You got me thinkin' that I was too mean
Well, everything that I say, I believe
Tuck a knife with my heart up my sleeve
And change like a season
Reason for nothin'
I am disruptive
I've been corrupted
And by now I don't need a fuckin' introduction
I been gone
'Cause I been on this road too long

You know I get too caught up in a moment
I can't call it love if I show it
I just fuck things up, if you noticed
Have you noticed?
Tell me have you noticed?
I get too caught up in a moment
I can't fall in love if I show it
I just fuck things up, if you noticed
Have you noticed?
Tell me have you noticed?

I got a problem doin' things
I'm not supposed to
But you did anything I told you
'Cause you'd let anybody
with a body control you
And you know it too
You got me feeling like I been too mean
And everything that I say I believe
Tuck a knife with my heart up my sleeve
And fuck like a demon
Do it like nothin'
I am disgusting
I've been corrupted
And by now I don't need no help to be
destructive
I been gone
Yeah, I been on this road too long

I know you get too caught up in a moment
You can't call it love if you show it
We just fuck things up, yeah I noticed
Yeah I noticed

Step out of the moment
That's been trappin' you in
All this negativity of hatred and insanity
Don't dwell on the past
It's time to make a change
Look around believe in what you see
I have returned to hell

You know I get too caught up in a moment
I can't call it love if I show it

I just fuck things up, if you noticed
Have you noticed?
Tell me have you noticed?

I get too caught up in a moment
I can't fall in love' cause I'm focused
I just fuck things up, if you noticed
Have you noticed?
Tell me have you noticed?

The more that you give away
The more that you have
More that you give away
More that you have
The more that you give away
The more that you have
The more that they take
