

Hank Snow, I Have You And That's Enough For Me

When lights are low and we're together a rain or snow who minds the weather
I have you and that's enough for me
Don't care if fortune ever finds me don't need of who's or friends around me
I have you and that's enough for me
By the firesides where you find me when the day is through
Left the world to pass our window I don't mind when I'm with you
When lights are low and we're together a rain or snow who minds the weather
I have you and that's enough for me
[ac.guitar]
Don't need a mansion on a mountain or chandeliers and bif mable fountains
I have you and that's enough for me
Don't need a pleasure money can buy me rich or poor youz stand beside me
I have you and that's enough for me
By the firesides...
I have you and that's enough for me
