

# Harry Styles, Cherry

don't you call him baby  
we're not talking lately  
don't you call him you used to call me

I confess  
I can tell that you are at your best  
I am selfish si I ma taking it  
I notice that there's a piece of you in how I dress  
take it as a compliment

don't you call him baby  
we're not talking lately  
don't you call him you used to call me

I just miss  
I just miss your accent and your friends  
did you know I still talk to them?

does he take you walking 'round his parents' gallery?

don't you call him baby  
we're not talking lately  
don't you call him you used to call me  
don't you call him baby  
we're not talking lately  
don't you call him you used to call me
