

# Hey Violet, Close My Eyes

parking lot on a dead end street  
same place that we used to meet  
I better get too close  
gotta know what you're doing there  
her hands running through your hair  
another minute then I think I'll go

I am taking mental pictures of you  
for when I get home, I get home  
I'm gonna get under the covers with you  
but I am all alone  
all alone

I close my eyes then I make believe  
you're the one that's holding me  
got you with me late at night  
I close eyes and I concentrate  
you've got me imagining  
like you're letting me inside  
every time that I close my eyes

start now and I miss your taste  
the way it felt when you grab my waist  
can't forget your body moves  
now I see you with someone else  
keeping my hands to myself  
but to tell the truth, I am

I am taking mental pictures of you  
for when I get home, I get home  
I'm gonna get under the covers with you  
but I am all alone  
all alone

I close my eyes then I make believe  
you're the one that's holding me  
got you with me late at night  
I close eyes and I concentrate  
you've got me imagining  
like you're letting me inside  
every time that I close my eyes

hold my breath, count to 5  
hoping that you're there when I open my eyes  
cross my heart  
hope to die  
every time that I close my eyes  
hold my breath, count to 5  
hoping that you're there when I open my eyes  
cross my heart  
I don't know why

I close my eyes then I make believe  
you're the one that's holding me  
got you with me late at night  
I close eyes and I concentrate  
you've got me imagining  
like you're letting me inside  
every time that I close my eyes
