

# Highwater Rising, Lie Awake

She'd be working  
in the night time  
I'll be working  
in the day  
we sleep together  
on occasion  
but it seems so  
it seems so far away  
I hate to fall asleep  
here without her  
I'm scared of what  
the nighttime will say  
I need to have more  
than on occasion  
till these nightmares  
till these nightmares go away  
so I lie awake  
I lie awake and I  
think about her till I  
fall fast asleep  
and I can't wait  
till she will call  
and wake me from this foolish nightmare  
but in the mean time  
I'll be dreaming  
that she left me  
or I left her in the night  
comfort comes to me  
when I see her  
but she won't be  
no she won't be in my sight  
chorus  
and say hey  
you know I love you too  
it's just a bad dream baby  
bad dream baby  
it won't come true  
and I know I know  
I know you love me too  
it's been a bad night baby  
bad night for me and you
