

House Of Heroes, Katie Baby

if you so much as say my name into a phone
that you dialed for my home i'll come running back again
if you so much as entertain the thought of us
that you had while riding the bus ill come running back again

Chorus

Katie baby you drive me crazy
i cant get you off my mind
cant break the tie that binds
but now is not the time
i'll get it right this time
its lonely
its worth it
you better believe its worth it

watch the
reruns in my mind
drive by your house two or three times
your not home and i dont care
lies, lies

Chorus

you drive me crazy
you drive me crazy

its lonely
its worth it
