

House Of Heroes, You Are The Judas Of The Ch

Find the bold fused in the bone
Grinding, pulling
All this machinery was never gonna let you go
Binding, owning
Break to heal, and heal he will
Fragile, growing
He learned to hate, he learned to kill, and now he'll learn to feel
He'll learn to feel
Take these wings of iron
Off my back, out of my heart
Forged in the fire and the fire it burns in me
Get out your ghosts
Teach them to sing
Fire is burning you clean
I bet you had it coming
And when it rains
Live in the stream
Every drop that comes down from above
Washes you clean
I bet you had it coming
I've slept in the belly of the beast
Now I'll sleep under your wings
Forged in the fire and the fire it burns in me
