

# Incognito, Restless As We Are

I knew if I found the patience  
Then eventually in time  
I'd find someone whose journey

Could be a part of mine  
I feel I can go the distance  
□Without raising false alarms  
Because you understand me  
And I realize your charms

I'm through with hesitation  
This time I've come around  
I'm under no illusion  
That love cannot be found

And still with clouds above me  
Everything looks bright  
I've never felt like this before  
I'm drawn into the light

Where skies fall into oceans  
We'll always share the dawn  
Crazy 'bout each other  
Restless as we are  
Where streetlights cast their shadows  
We'll consume the night  
Bound to one another  
Restless as we are

Some live their lives with prudence  
But that's not you and I  
Journeys, songs and poetry  
Ending with a sigh
