

# India Arie, Nature

I know  
Oh, Oh Yeah

Hey baby  
Why are you rushing?  
Let's sit back and watch the flowers grow  
Why you want  
To swim against the tide?  
Let's lay and watch the river flow

Here in God's creation  
There is always a reason  
I know that love is there for us  
Yeah

Where we'll go, baby I don't know  
Maybe we should just let nature run the show  
Where we'll go, baby I don't know  
Maybe we should just let nature run the show

I don't wanna watch no movie  
Let's sit and watch the stars put on a show  
If you want to win my favor  
Be creative, and show me your flavor  
Cause here in God's creation  
For everything there is a SEASON  
Let go  
Let life  
Let love  
Let God

Chorus  
Where we'll go, baby I don't know  
Maybe we should just let nature run the show  
Where we'll go, baby I don't know  
Maybe we should just let nature run the show

Like the sun shines and  
The wind blows  
Like the birds fly  
And the moon glows  
If I am meant for you and  
You are meant for me  
Then we will flow together  
Everlastly

Where we'll go, baby I don't know  
Maybe we should just let nature run the show  
Where we'll go, baby I don't know  
Maybe we should just let nature run the show  
Maybe we should just sit and watch the flowers grow  
Maybe we should sit, back and watch the moon glow  
Maybe we should just sit and feel the wind blow  
Maybe, maybe, maybe....

First you plant a seed  
And then it grows and  
Then it blooms  
And it dies  
That the cycle of life  
Same go's for you and I  
Maybe this time we'll get it right

Go with the flow

Maybe we'll get it right....
