Indochine, Two Faces

I met a girl and we ran away I swore I'd make her happy every day And how I made her cry Two faces have I

Sometimes mister I feel sunny and wild Lord I love to see my baby smile Then dark clouds come rolling by Two faces have I

One that laughs one that cries one says hello one says goodbye There are things I don't understand Makes me feel like half a man

At night I get down on my knees and pray Our love will make that other man go away But he'll never say goodbye Two faces have I

Last night as I kissed you 'neath the willow tree He swore he'd take your love away from me He said our life was just a lie And two faces have I

One that laughs one that cries one says hello one says goodbye There are things I don't understand Makes me feel like half a man
