Inspiral Carpets, Caravan

Sun, here's the sun Let's go to the lake We'll take you down Just say the word

Rain, here's the rain Slip and slide in vain Mud between our toes Saturation take you home

They came through the sun They came through the rain Through this rocky terrain A caravan

Everyone take note We've dug here before Here is where all lie When this night is done

It's time I guess As we go marching on Live for every day As if it were the last

They came through the sun They came through the rain Through this rocky terrain A caravan
