

Iron Savior, Together as One

Here we are on our way
Across the infinity
Man and machine
In glorious unity

Riding on thunder
Faster than light
In dignity, honor and pride
The titan embarks
With all it's might
Into glory we ride

Spread out your wings
And take us far beyond
To ride on the winds of eternity
Where we belong
Spread out your wings
And take us far away
The stars are the limit
No boundaries
Atop of the sun
Together as one

No looking back
No turning around
Onto the unknown
We're leaving ground

I gave my life
For the savior machine
Fulfilling the dream
Unchained from treason
Death and decay
Sworn to return
Some other day

Spread out your wings
And take us far beyond
...

Spread out your wings
And take us far beyond
