

Isabell Otrebus, Delirium

say my name
Hold me closer
don't let go

in the night
I still lightening through the storm

when you told me to go
I don't know what to did
but I need you to know
that I am already started delirium

but the way that you touch me
feel like you give me a moment to break delirium
my only delirium

I gonna love you till I die
I gonna make you leave and trace upon
but in the sea I need to find my own delirium
delirium

delirium
delirium

hold the line
spinning round cross the floor

when you told me to go
I don't know what to did
but I need you to know
that I am already started delirium

but the way that you touch me
feel like you give me a moment to break delirium
my only delirium

I gonna love you till I die
I gonna make you leave and trace upon
but in the sea I need to find my own delirium
delirium

delirium
delirium

say my name
Hold me closer
don't let go

I gonna love you till I die
I gonna make you leave and trace upon
but in the sea I need to find my own delirium
delirium

delirium
