

Isis Gee, Empire

I'm yours
In our love cocoon
No one to witness
But the moon
My conception
Of your smile
Diamonds never go out style
The force leading to this page
Surrounds the light of dawn
And dusk lives in our name
Our path was pure and evident
If love is an Empire
Than we are the eminence
My King
With gold in his chest
Engulfed as he lays at my breast
His queen
I wear his crown
And taken by the zenith
We have found
The force leading to this page
Surrounds the light of dawn
And dusk lives in our name
Our path was pure and evident
If love is an Empire
Than we are the eminence
We gonna
We gonna do it naturally
We gonna
Cause you're my king
And I'm your queen
The force leading to this page
Surrounds the light of dawn
And dusk lives in our name
Our path was pure and evident
If love is an Empire
Than we are the eminence
Shape of my heart
A lions den
For your love
I'd throw myself in
We gonna
We gonna do it naturally
We gonna
Cause you're my king
And I'm your queen
