

# it's different, Shadows

Run free  
And dive into to the sky  
Hear the wind cryng out it prayer  
Why are we so ashamed to be alive  
Break the chains  
And the freedom's ours to take

Going harder  
We are more than numbers  
Standing in their shade  
Going louder  
We are all one colour  
Standing in their way

Don't look behind your back  
Chase the light  
When the world is getting darker  
I have a dream  
Where love's the only side  
So take my hand  
Join the army of the shadows

Going harder  
We are more than numbers  
Standing in their shade  
Going louder  
We are all one colour  
Standing in their way

Join the army of the shadows  
And join the army of the shadows  
And join the army of the shadows  
Shadows /2x  
And join the army of the shadows  
And join the army of the shadows

Going harder  
We are more than numbers  
Standing in their shade  
Going louder  
We are all one colour  
Standing in their way
