

# ItaloBrothers, Up 'N Away

We're the rebels of the night  
We hold our hands up high  
We're dancing with the light  
And reaching for the sky

We're the rebels of the night  
Uh thunder to your brain  
Stranded by the tide  
We're running through your vein

We're the rebels of the night  
We hold our hands up high  
We're dancing with the light  
And reaching for the sky

We're the rebels of the night  
Uh thunder to your brain  
Stranded by the tide  
We're running through your vein  
We're the rebels of the night

We party till we drown  
Till the break of dawn

Up 'n away

Come on lets get this started  
Come on lets get this started

Up 'n away  
We need no place to hide  
Up 'n away  
We gonna fly so high  
Up 'n away

We're the rebels of the night  
We hold our hands up high  
We're dancing with the light  
And reaching for the sky

We're the rebels of the night  
Uh thunder to your brain  
Stranded by the tide  
We're running through your vein

We're the rebels of the night  
We hold our hands up high  
We're dancing with the light  
And reaching for the sky

We're the rebels of the night  
Uh thunder to your brain  
Stranded by the tide  
We're running through your vein

We're the rebels of the night

We party till we drown  
Till the break of dawn  
We party till we drown

We're the rebels of the night

Up 'n away

Come on lets get this started  
Come on lets get this started

Up 'n away  
We need no place to hide  
Up 'n away  
We gonna fly so high  
Up 'n away
