

# Jack Harlow, Dua Lipa

Rain, rain, rain, rain  
I catch a groove like, uh-uh

Dua Lipa, I'm tryna do more with her than do a feature (Do it)  
I checked the web, they out here chewin' me up, fuck it  
Fadeaway, I lift that Luka knee up, bucket  
I heard from someone you said you could be us, nothing

You know my city like the new Korea, bustin'  
All these discussions over who could see us, hush it  
I sold them basements out, let's do arenas, crushin'  
She looking, I'm blushing, I'm lying, I'm touching

Rain, rain, rain, rain  
I need this shit to be taken up, I got accustomed to it  
Fuck a leap of faith, I took a jump just like it's nothing to it  
Girl, them Russian twists is working, now just put your butt into it  
All that talk, I'm cutting through it  
I ain't no connoisseur, but I like this kind of store  
I got nothing to do with who the fuck they think I'm screwing  
Uh, nine times out of ten I had 'em, then I blew it, but I need some

So why you being extra, huh? Being extra  
She's a European and she know I'm seeing extra  
Got a main character, but you could be an extra  
Yes, sir, we the hottest out, used to be next up  
Now I'm on some Ariana (Ooh), thank you, next, bruh  
Shorty came from Lexin', she flexed up  
EJ turnt these motherfuckin' pecks up  
Need somethin', I hit my connects up  
I get like three somethin' every time I dress up  
I told Yeezus that I got a confession  
We 'bout to be somethin', they gon' have to catch up  
So what's up?
