

Jacquie Lee, Somebody's Angel

Oh my love
Can't see no light
Shine through
It's dark out here
And right now I'm needing you

Wish I could hear the words
That you'd say to me
Right now
Wish I knew where you were
You were here with me
Somehow
But you're somebody's angel now
somebody's angel
somebody's angel now
somebody's angel
somebody's angel now
somebody's angel
somebody's angel now

Oh, my love
Nothing's been making sense
I ask why
Is anyone listening?

Wish I could hear the words
That you'd say to me
Right now
Wish I knew where you were
You were here with me
Somehow
But you're somebody's angel now
somebody's angel
somebody's angel now
somebody's angel
somebody's angel now
somebody's angel
somebody's angel now
