

Jahcoozi, Style

I got style
Upwardly mobile
Which of you wankers stole my nail file
Work at CNN, read the news at ten
ironed out my afro just to work for them.
Girls with designer handbags, wearing them padded bras
Girls who play their poker by showing off all their cards
Girls who are flaunting money
Girls who wannabe honeys
Girls young girls started
Coming in the same muster.
Girls getting screwed much younger little wanna be porno stars
Girls getting screwed up younger with prozac leaving scars
Girls you can mold like putty
Girls who can do it dirty
Girls young girls whose minds contain jack shit

I got style
Upwardly mobile
Which of you wankers stole my nail file
Work at CNN, read the news at ten
ironed out my afro just to work for them.
Girls whose youths are wasted on their sagas with their men
Girls whose desperate housewife role begin when they were ten
Girls neglecting their own
Girls obsessed with their phones
Girls young girls just waiting for their man to call
Girl don't pick your nose
You just aint supposed,
You gotta stand their looking pretty girl strike a pose
Girl go wax your toes
Perfume all your holes
You gotta keep your man happy smell like a rose
