

# James Blunt, Unstoppable

Take me back to where we started  
That was such a moment back when we were 17  
There in your skinny jeans, darling  
It's funny how the summer passes  
We won't let our love just fade into a memory fall  
With the autumn leaves, darling  
We get down, we get up  
We keep taking the smooth with the rough  
We can rise from the dust now  
Cause I don't believe in impossible  
We got a love unstoppable

With you beside me  
I am too high to fall  
This kind of love's unstoppable  
I hold you when the wind blows wild  
And tomorrow don't seem  
What you thought it would be

We both know the ties between us  
Keep us going strong now  
Well, 2 lights around  
We never had a doubt  
We get down  
We get up  
We keep taking the smooth with the rough  
We can rise from the dust now  
Cause I don't  
I believe in impossible  
We got a love unstoppable

With you beside me, I'm too high to fall  
This kind of love's unstoppable  
We still run like  
We still move like  
There's nothing in our way  
Now come whatever  
Here forever  
No time won't break the chain
