

# James Reyne, Any Day Above Ground

Took a look around this cocktail landscape  
At the mud and the blood and the beer  
No more Balmain irony  
No more clubhouse cheer  
Red salmon running way up the river  
Red sky's a sailor's delight  
Mother's stand in their calendered kitchens  
Blue Hills broke the night

Chorus ~  
She caught my eye  
Said don't you deny  
Surround yourself with light  
She said  
Any day above ground is a good day  
Any moment alone with you  
Any day above ground is a good day and true

We were sittin' and a'chewing Marlboros  
Smoking on the red brick flats  
Calling all the cars on Davey Street  
Laughing at the boys in black

Chorus +  
Any day above ground is a good day  
Any moment alone with you  
Any day above ground is a good day and true

She caught my eye  
Said don't you deny  
Surround yourself with light  
Yeah yeah yeah yeah  
She caught my eye  
Said don't you deny  
Surround yourself with light

Chorus  
Any day above ground is a good day  
Any moment alone with you  
Any day above ground is a good day and true  
She said  
Any day above ground is a good day  
Any moment alone with you  
Any day above ground is a good day and true
