James Reyne, Any Day Above Ground

Took a look around this cocktail landscape At the mud and the blood and the beer No more Balmain irony No more clubhouse cheer Red salmon running way up the river Red sky's a sailor's delight Mother's stand in their calendered kitchens Blue Hills broke the night

Chorus ~
She caught my eye
Said don't you deny
Surround yourself with light
She said
Any day above ground is a good day
Any moment alone with you
Any day above ground is a good day and true

We were sittin' and a'chewing Marlboros Smoking on the red brick flats Calling all the cars on Davey Street Laughing at the boys in black

Chorus +
Any day above ground is a good day
Any moment alone with you
Any day above ground is a good day and true

She caught my eye
Said don't you deny
Surround yourself with light
Yeah yeah yeah yeah
She caught my eye
Said don't you deny
Surround yourself with light

Chorus

Any day above ground is a good day
Any moment alone with you
Any day above ground is a good day and true
She said
Any day above ground is a good day
Any moment alone with you
Any day above ground is a good day and true
