

Janet Jackson, No Sleep

Flesh
Come on

You're missing me
I'm missing you
Wherever we meet, we ain't gonna get no sleep
You came to me to get back with you
Cause we are complete, we ain't gonna get no sleep

A vision rolling round in my head, but I don't really talk about it
I'm loving what you're doing to me and I don't wanna talk about it
Day and night, I dream of us doing whatever
But I guess I'll have to wait until that day comes

You're missing me
I'm missing you
Wherever we meet, we ain't gonna get no sleep
You came to me to get back with you
Cause we are complete, we ain't gonna get no sleep

48 hours in love
It oughta be a weekend marathon
So you better get ready, my king
Cause I'ma be the queen of insomnia
Stay wide awake
For every moment we spend together
Cause every second you're awake
Feels like forever

You're missing me
I'm missing you
Wherever we meet, we ain't gonna get no sleep
You came to me to get back with you
Cause we are complete, we ain't gonna get no sleep

You're missing me
I'm missing you
Wherever we meet, we ain't gonna get no sleep
You came to me to get back with you
Cause we are complete, we ain't gonna get no sleep

On't have time to sleep but we can dream
So think outside the box, my baby
Show me how much you are missing me
And read between the lines, and touch you in the rains

Flesh

We ain't gonna get no sleep
We ain't gonna get no sleep
We ain't gonna get no sleep
