

# Jason Derulo, Try Me (ft. J.Lo & Matoma)

I like the way that your body moves all over the floor  
I'd like to find a way to get lost in you  
I wanna talk to you baby  
Say what's on your mind  
But tell me anything that you wanna do  
Ain't we all just looking for some loving tonight  
Got a crazy feeling that I think you're just right

So try me in the morning when the sun comes rising up  
Try me, in the afternoon, bet you just can't get enough  
Try me, in the evening, satisfaction guaranteed  
Baby I got what you need, you gotta try me  
Try me

Talk to me

Let's go and find a place and get to know each other more  
It's all over your face, I know you like what you see  
I'm the one for you baby, but you can take your time  
Let the music bring your body to me  
Ain't we all just looking for some loving tonight  
Got a crazy feeling that I think you're just right

So try me in the morning when the sun comes rising up  
Try me, in the afternoon, bet you just can't get enough  
Try me, in the evening, satisfaction guaranteed  
Baby I got what you need, you gotta try me  
I know  
I got what you need, you gotta try me

Bring that body closer  
I wanna feel your skin upon mine  
Like I don't really know ya  
I'm grabbing that ass from behind  
That's why the T.Y.  
I got chills down my spine  
That's why the T.Y.  
Girl we might be meant to be

So try me in the morning when the sun comes rising up  
Try me, in the afternoon, bet you just can't get enough  
Try me, in the evening, satisfaction guaranteed  
I got what you need, you gotta try me  
I got what you need, you gotta try me
