

Jeff Lynne, Video

Video, eo, eo, eo, eo, eo, eo, eo

The satellites that search the night they twinkle like a star
They send their love from up above down to my meteor
The world is at my fingers under control

On, video, eo, eo, uh ho

Play it one more time

Video, eh oh, got the world on my TV

I see that rock and roll and all those old time movie scenes
They beam across the sky together in electric dreams
I'll just sit here on my end I'll have it all

On, video, eo, eo, uh ho

Play it one more time

Video, eh oh, got the world on video

I see the shadows in the twilight as they dance, la, la, la
Video madness comes upon me like a trance in the dark
So I'll just stay right here and the world is okay, okay, okay

On, video, eo, eo, uh ho

Play it one more time

Video, eh oh, got the world on video, oh, oh, oh oh oh

And look at me now, I'm burning up the steel in wires
Look at me now, I'm burning up the steel in wires
Look at me now, now, now, now, now...

Video
