

# Jennifer Lopez, Don't love me (No Me Ames)

Tell me why you're crying...  
Of happiness.  
And why are you drowning?  
for loneliness  
Tell me why you take my hands so strongly, and let your  
thoughts carry you away  
I love you so much  
And why is that?  
Crazy stubborn person, stop doubting it any longer  
Even though in the future there will be a huge wall  
I'm not afraid, I want to fall in love  
Dont love me, because you think that  
I may appear different  
You dont think its right  
For us to see time go by together?  
Dont love me, I understand  
the lie that it would be  
If your love, I don;t deserve, dont love me,  
just stay another day  
Dont love me, because I am lost,  
Because I changed the world, Because its destiny  
Because it can't be, We both are like a mirror,  
And you would be my own reflection  
Don't love me, you would be dying  
Within a war full of regrets, dont love me to be on this  
Earth, I would like to throw your enormous love  
thru the blue sky.  
I dont know what to say to you, that's the truth  
When people want to, they know how to hurt  
You and I will depart, they would not move,  
But in this sky dont leave me alone  
Dont leave me, dont leave me, dont listen to me  
If I say to you "dont love me"  
Dont let me. Do not disable  
my heart with that "Dont love me"  
Dont love me, I'm begging you, leave me with my bitternes  
You know well, that I can't, that its useless,  
That I will always love you  
Dont love me, because I would make you suffer with this heart of mine  
that was filled with a thousand winters.  
Dont love me, so that way you can forget of your gray days.  
I want you to love me, just to love me  
Dont love me, you and I will fly,  
With with the other, and we will always be together  
This love is like the sun that comes out after the storm  
Like 2 comets on the same path
