

# Jennifer Lopez, Talk About Us

I saw you and fell in love  
You saw me and fell in love, too  
You and me; we fell in love with each other last night  
I told you I was concerned  
You told me of your concerns, too  
Yet and still we both decided  
To make love last night  
Baby, please tell me

[CHORUS:]

Where do we go from here my love  
What are we doing baby  
Boy you gotta let me know  
Why can't we live the way we want  
I want the world to know  
I just gotta let it show  
What do we stand to lose  
If being together  
Is what we choose  
Oh my love  
I think that we should talk  
About us

Could this be a crazy dream  
And if so then you're dreaming too  
'Cause I know for sure that  
You feel the same as I do  
Could it be that we could be wrong  
Even though we're feeling so right  
I don't care because I know  
That I want you tonight  
And I know you want me too

[CHORUS ]

[BRIDGE:]

You see all my live I've waited  
Waited all my life  
Just to be with someone like you

[CHORUS ]
