

# Jennifer Lopez, To Love Is Forever

You invaded my heart  
With this love that sometimes clouds the reason  
And you can't think  
I feel the same way too  
From the first time I seen you, I was in love  
I can't keep quiet anymore

CHOURS:

My love is forever  
You're my reason, my peace  
My light, my only truth  
Love is givin with nothing to expect in return

You are how I dream  
Your smile is the sun of every dawn  
Without you, I don't know how I breath  
I want to wake up next to you  
In your body I found my other half  
You taught me how to be a woman
