

# Jennifer Lopez, US

is this a warning?  
my heart beating on an offbeat  
is this a caution  
that I can't get enough for your need

could it be us?  
could it be us?  
could it be us?  
could it be us?

feeling you go on and touch my love  
throwing it now  
here we go  
catch up

could it be us?  
could it be us?  
could it be us?  
could it be us?

I'm right here  
don't wake me if I'm dreaming  
could you be the one without a doubt?  
could I be for your keeping

could it be us?  
could it be us?  
could it be us?  
could it be us?
