

JES, One Moon Circling

In the sky
someone watches over me
You and I
On this Earth
With One Moon Circling
Lately I ,
I shudder to think about you
Where you are,
Staring up at the same star
From miles away
I believe there's a morning after...
You and I
I believe there's a morning after...
In the sky
someone watches over me
You and I
On this Earth
With One Moon Circling...
