

Jessie James, Wanted

Hoo hoo hoo..
I wanna lie in my bed
And do nothing
I dont care what anyone says
I got you on my mind
Thinking about one thing
Gonna show you how I do it best
Put my lips on your mouth
Keep you commin around
Cus I like it
Put your hands on my hips
Take me down
Sink this ship
Boy I cant resist
I wanna wear my hair up in a mess
Cut off jeans, can you get with that?
Give you something like youve never had
Cus I only wanna be wanted by you
I wanna tease you till youre begging me
And youre on your knees
And its hard to breathe
And every other time is just a memory
Cus I only wanna be wanted by you
Those other guys when they call
I might answer
But you're the one Im thinking bout
So baby dont disappoint
Just move faster
And show me what youre feeling now
Put your lips on my mouth
Keep you commin around
Cus I like it
Nothings wrong
Its so right
Got permission from me tonight
So turn off the lights
I wanna wear my hair up in a mess
Cut off jeans, can you get with that?
Give you something like youve never had
Cus I only wanna be wanted by you
I wanna tease you till youre begging me
And youre on your knees
And its hard to breathe
And every other time is just a memory
Cus I only wanna be wanted by you
Now Im going crazy
Im tired of waiting
My lips are on fire
I just want you to know
Im losing my patience
For the time that youve wasted
Put your lips on my mouth
Put your lips on my mouth
Put your lips on my..
(x2)
I wanna wear my hair up in a mess
Cut off jeans, can you get with that?
Give you something like youve never had
Cus I only wanna be wanted by you
I wanna tease you till youre begging me
And youre on your knees
And its hard to breathe
And every other time is just a memory
Cus I only wanna be wanted by you
