

Jimmy Buffett, Bring Back The Magic

Nothing can tear you apart
If you keep living straight from the heart
Though you know that you're gonna hurt some
The magic will come

If you keep living straight from the heart
you will know when to stop and to start
Once you see that no one really wins
Then the magic begins

Bring back the magic
Don't make life so tragic
Bring back the magic
Don't make life so tragic

Beachcombers ride oh children lost in the tide
Time's never at their command
Waves melt all castles of sand
Melts all castles of sand

Bring back the magic
Don't make life so tragic
Bring back the magic
Don't make life so tragic

Red sky at night such a sailor's delight
Red sky at dawn oh gypsy song's comin' on
Gypsy song comin' on
Song comin' on

Nothing can tear you apart
If you keep living straight from the heart
Though you know that you're gonna hurt some
The magic will come

If you keep living straight from the heart
You will know when to start and to stop
Once you see that no one really wins
Then the magic begins

Bring back the magic
Don't make life so tragic
Bring back the magic
Don't make life so tragic
