Desdemonas building a rocket ship
Desdemonas going away
Desdemonas building a rocket ship
Blasting off today
She's got a passion for cookies
A crew full of rookies
It's going to be a hell of a blow
Desdemonas building a rocket ship
And I've got to go

A women on a mission
Quite familiar with quasars
Her heart is in a kitchen
But her soul is in the stars
Crystal clear on logic
But short on expertise
This is a very ancient puzzle
She feels herself a piece

Desdemonas building a rocket ship
Desdemonas going away
Desdemonas building a rocket ship
Blasting off today
She got a passion for cookies
A crew full of rookies
It's going to be a hell of a blow
Desdemonas building a rocket ship
Guess I've got to go

She was down in puerto rico
Doing a scientist
True, he was no geek though
She was taken with his kiss
It was under the giant telescope
Were she heard the calling voice
It came screaming though the light years
She never had a choice

Pleiades calling her home
Seven sisters, she hears her distant sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters

Pleiades calling her home
Seven sisters, she hears her distant sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters

A woman on a mission
Quite familiar with quasars
Her hearts still in the kitchen
But her soul is in the stars
Her engine fuel with logic
And navigation expertise
It's a very distant puzzle
She gonna to get her piece

Desdemonas building a rocket ship
Desdemonas going away

Desdemonas building a rocket ship
Blasting off today
She got a passion for cookies
A crew full of rookies
It's going to be a hell of a blow
Desdemonas building a rocket ship
I've just got to go

Yea, oh yea
Seven sisters, she hears her distant sisters
Yea, oooooowwww!
Pleiades calling her home
Seven sisters, she hears her seven sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters

Pleiades calling her home
Seven sisters, she hears her distant sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters
