Desdemonas building a rocket ship
Desdemonas going away
Desdemonas building a rocket ship
Blasting off today
She's got a passion for cookies
A crew full of rookies
It's going to be a hell of a blow
Desdemonas building a rocket ship
And I've got to go

A women on a mission Quite familiar with quasars Her heart is in a kitchen But her soul is in the stars Crystal clear on logic But short on expertise This is a very ancient puzzle She feels herself a piece

Desdemonas building a rocket ship Desdemonas going away Desdemonas building a rocket ship Blasting off today She got a passion for cookies A crew full of rookies It's going to be a hell of a blow Desdemonas building a rocket ship Guess I've got to go

She was down in puerto rico
Doing a scientist
True, he was no geek though
She was taken with his kiss
It was under the giant telescope
Were she heard the calling voice
It came screaming though the light years
She never had a choice

Pleiades calling her home Seven sisters, she hears her distant sisters Pleiades calling me home Seven sisters, she hears her seven sisters

Pleiades calling her home Seven sisters, she hears her distant sisters Pleiades calling me home Seven sisters, she hears her seven sisters

A woman on a mission Quite familiar with quasars Her hearts still in the kitchen But her soul is in the stars Her engine fuel with logic And navigation expertise It's a very distant puzzle She gonna to get her piece
