

# Jimmy Somerville, Breadline Britain

This is Breadline Britain  
This free and promised land  
Where the rich don't give a damn  
People getting hungry and people  
getting poor  
People getting destitute and more  
This is Breadline Britain

Oh you've got to understand  
Where evil's in command  
Where money buys only pipedreams  
and a worker's life is damned  
Democracy and freedom are a  
Far off foreign land

Where the sick don't stand a chance  
Where fascism leads a new dance  
Where they'd privatise your mother  
If given half a chance  
This is Breadline Britain  
You've got to make a stand

Breadline, breadline, breadline Britain  
Breadline, breadline, breadline Britain  
This free and promised land
