

Jimmy Somerville, By Your Side

(Rowe / Somerville / Stannard)
Whatever we may do
Whatever we may fall
All I ask of you
Please love me too, like I love you
Always, always
By your side
We share the pain inside
Together we will try
To understand, why?
For those who die, so many friends
Goodbye
Always, always
By your side
If life is all we are
Then shine like every star
Nothing lasts forever
Time will make our history
As love will too
Always, always
By your side
