## Jimmy Somerville, Do It

Shake your body Lose your mind We set our standards In this world of mine Let's do it do it once again Let's do it do it one more time Let's do it while the night is young Don't keep, don't keep your distance

You look so good You look so fine The question is your state of mind Let's do it, do it once again Let's do it, do it one more time Let's do it while the night is young

Don't keep, don't keep your distance

Gonna shake Gonna shake your body

Chorus

The presure's lifting I'm feeling high You cannot reach me In this world of mine Move your body Close to mine We've got our standard, in this world of mine
