

Jimmy Somerville, Lovething

(Butcher / Somerville)

I hold my heart on high for y'all to see
He's the one who sets desire free
Loving him comes on high
On my ambitions
Whatever road we take I got to do or die

We got this love thing, love thing
We got this love thing, goin' on
We got this love thing, love thing
We got this love thing, goin' on
We got this love, love, love

There came a time when my reality
Hurt me day by day then deserted me
Now I fight my way
Through those inhibitions
With the man who rescued me
From the ghetto in my mind

We got this love thing, love thing
We got this love thing, goin' on
We got this love thing, love thing
We got this love thing, goin' on

Such a feeling oooh such a feeling

We got this love thing, love thing
We got this love thing, goin' on
We got this love thing, love thing
We got this love thing, goin' on
