

Jimmy Somerville, Safe In These Arms

(Butcher / Somerville)
Here in these arms
Our history began
Before there was you
There was thirst in my heart
Look at my lips, you will see
I have drunk from the river
That flows to the sea
Of our love
Safe in these arms,
That's where I want to be
Safe from the harm, in these arms
That's where I want to be
If I may die
Let it be here with you
For here with you
I shall surely be safe
Safe from the hate, from the lies
From the vultures of Christ
I need no Gods
I have no fears, I have you
Safe in these arms,
That's where I want to be
Safe from the harm, in these arms
That's where I want to be
Never let me, never let me
Say you'll never let me go
Say you'll never let me
Say you'll never let me go
Say you'll...
Take me in your arms
And say you'll never let me go
Take me in your arms and hold me
Say you'll never let me go
