

# Jin, Diss To Ludacris And Lil' Wayne

(Intro)

Damn... we ain't neva gonna wait...

(Chorus)

We need to stop this shit  
And realize that what you spit  
Is meaningless garbage  
To shake some ass and tits  
Don't act like you sick, and I'mma respect you

Leave hip-hop alone, go promote whack rap, coo?

(1st Verse)

When I turn on the radio, I get nautious  
Annoying commercial garbage  
I make sure to turn it off quick  
Y'all make me so sick it's pointless  
To even diss  
But I do it for the loute and mp3 page hits!
