

# Jo Dee Messina, Nothing I Can Do

Here I am begging you to hold me  
When everything is telling me to run  
I should turn around, leave this town  
Without a sound, and never say word one  
Just call it done

But I'm torn right down the middle  
I'm on both sides of the line  
I know I should be leaving,  
But the choice ain't mine

Chorus:  
There's nothing I can do  
I can't fight  
I got a heart like a rocket  
I just gotta ride it  
The cold hard truth when it comes to loving you  
There's nothing I can do

These footprints on my heart tell a story  
Many times it's been a stepping stone  
It's been pushed around, broken down  
Until I've found I was better off alone  
Out on my own

I remember every heartache just like it was yesterday  
But baby when you hold me, you take all that pain away

Chorus

Oh I couldn't keep myself from falling  
Even if I really wanted to

Chorus
