## Joan Armatrading, I Wanna Hold You

You got the look I like You make the people stare And it's getting me In a state

You're going out With someone I don't approve of And it's getting me In a state

I see you in a restaurant
I wanna hold you
I see you with your mother
I wanna hold you
I see you when you don't see me
I wanna hold you

I wanna hold you In my arms And I wanna Love you I want you And I'm gonna try

I'm searching but I don't Know why I bother 'Cos I've seen you And you look Just right
