## Joan Baez, Less Than The Song

I am less than the song I am singing I am more than I thought I could be Spent some time as a child in day dreaming As a young one I sailed on the sea So come stand by my side where I am going Take my hand if I stumble to fall It's the strength that you share when your growing That gives me what I need most of all That gives me what I need most of all Diffrent minds, diffrent ways Diffrent reasons to believe Some far journeyswe have taken Some sweet dreams we've had to leave And I want you to be happy And I hope you always will Or I cannot rest easy Till all your dreams are real Till all your dreams are real
