Joe, Alone

Alone
It's like being in a crowded room with no familiar faces
Alone
It's like thinking that I see your face in unfamiliar places
Alone
It's waking up to a empty bet you used to lay your head on
Alone
And I don't wanna be alone anymore

See I was wrong
Not afraid to admit
I was such a jerk
Can't believe the things I did
I made you hurt
You don't deserve that
Never know just what got until it's gone

Now I'm shook-up (I can hardly sleep)
Now I'm choke-up (I can hardly eat)
Now we broke up and it's killing me
I'm falling, I'm falling baby
Don't wanna be, don't wanna be
Alone

Never brought a rose
Never said I love you
Oh baby
Never realized
I couldn't live without you
Always heard you talk
Never really listened
And I never said how beautiful you are

If I had another chance
Promise I'd be twice the man
I was
Yesterday
If I had another try
I never tell another lie
I swear
Give you all the love deserve
