

# Joe Cocker, I Come In Peace

You see me comin'  
You feel like runnin'  
A wicked look is in your eye  
I don't come to harm you  
I come to warn you  
It's now or never, do or die

I had a vision  
A head on collision  
A revelation ya  
That sent me on a mission

I come in peace  
Love is a gold mine ya  
Find it you have to seek it  
Follow the heart sign  
It's flowin' rich and deep  
And it's well within our reach  
I come in peace  
I come in peace

Arrived with nothing  
And let me tell you something  
We're going out the same way  
I got your attention  
And maybe I should mention  
They'll be no rest till peace is made

Love is a gold mine ya  
Find it you have to seek it  
Follow the heart sign  
It's flowin' rich and deep  
And it's well within our reach  
I come in peace  
I come in peace

I had a vision  
A head on collision  
A revelation ya  
That sent me on a mission

I come in peace  
Love is a gold mine ya  
Find it you have to seek it  
Follow the heart sign  
It's flowin' rich and deep  
And it's well within our reach  
I come in peace  
I come in peace.
