

John Mayer, Carry Me Away

i'm such a bore
i am such a bummer
there must be more
behind the summer

I want someone
to make some trouble
been way too safe
inside my bubble

take me out
and keep my up all night
let me live on the wilder side od the light

carry me away
carry me away
carry me away

carry me away
carry me away
carry me away

you arnivore
you loose cannon
can I heve some more
I can't understand it
you fast car
you foolish splendor
you know you are
and I surrender

so come on over
abd wake me up
put some of your tequila in my coffee cup
you know I need ya
and that's for sure
you're just the kind od crazy I've been looking foe

carry me away
carry me away
carry me away

carry me away
carry me away
carry me away
