

# John Mellencamp, I Need Somebody Baby

I am your crazy driver  
Honey I'm sure to steer you so wrong  
I'm a dieing in this story  
I'm only livin' to sing this song

I need somebody baby  
You need somebody baby too  
I need somebody baby  
Just like you, Just like you

And I'm losing on my feelings  
And I'm running out of friends  
You know you lied to me in the beginning  
Now your gonna try to bring me to the end  
And you know that's such a shame

I need somebody baby  
You need somebody baby too  
I need somebody baby  
Just like you, Just like you

Now its time to leave this signal  
In in a run down and rotten mess  
You know I got my reputation  
Right there in your blue jean dress

I need somebody baby  
You need sombody baby too  
I need somebody baby  
Just like you, Just like you  
I need somebody  
Somebody  
Somebody
