

John Newman, Something Special

Something feels kinda special
Something feels kinda good

I can't give you what you want
I know that we can not move on
Something feels kinda special
So tell me why

(My love)
Why can you give me now
(Why can you give me now)

Tell me why
Why can you give me now
Why can you give me now
Tell me why
Why can you give me now
Why can you give me now

I'm done with sleepless nights
Lay awake here by your side
Save your mind, save your mind
Got nothing left to fear
You gotta tell him that you're here
He's not right, he's not right

I can't give you what you want
I know that we can not move on
Something feels kinda special

Tell me why
Why can you give me now
Why can you give me now
Tell me why
Why can you give me now
Why can you give me now

Something feels kinda special
Something feels kinda good

Tell me why
Why can you give me now
Why can you give me now
Tell me why
Why can you give me now
Why can you give me now
Tell me why
Why can you give me now
Why can you give me now
