

# John Newman, Tribute

My tribute

(Chorus)

It's all for you, it's all for you  
For what you have shown me  
It's all for you, it's all for you  
For what you have made me  
It's all for you, it's all for you  
For what you have shown me  
It's all for you, it's all for you  
For what you have made me  
Here's my tribute

(Verse)

15, I had known to be  
So confused, broken easily  
Now I could not be of the memory but you're next to me

(Verse)

18, you made me see  
You lit the lights I've been dampening  
Now I could not be of the memory but you're next to me

(Pre-Chorus)

My passion was abused, my words were never used  
But now I hope that you can see

(Chorus)

That it's all for you, it's all for you  
For what you have shown me and what you do  
It's all for you, it's all for you  
For what you have made me, look how I grew  
Here's my tribute

(Verse)

23, now I'm taken in  
This vicious whirl I was captured in  
Now I could not be of the memory but you're next to me

(Pre-Chorus)

My passion was abused, my words were never used  
But now I hope that you can see

(Chorus)

That it's all for you, it's all for you  
For what you have shown me and what you do  
It's all for you, it's all for you  
For what you have made me, look how I grew  
It's all for you, it's all for you  
For what you have shown me and what you do  
It's all for you, it's all for you  
For what you have made me, look how I grew  
Here's my tribute

It's my tribute!  
My tribute! Oh no!

(Bridge x2)

This life I've been brought  
Life I've been leading  
It's my life, it's my tribute

And it's all for you, it's all for you  
For what you have shown me and what you do

(Chorus)

That it's all for you, it's all for you  
For what you have shown me and what you do  
It's all for you, it's all for you  
For what you have made me, look how I grew  
It's all for you, it's all for you  
For what you have shown me and what you do  
It's all for you, it's all for you  
For what you have made me, look how I grew  
Here's my tribute
