

# Jojo, The Change

I am not gonna blame  
Put the blame on nobody  
All that's gonna get me  
Is get me nowhere  
I am just gonna look  
Gonna look in the mirror  
And start there

I am gonna be the change  
I am gonna start with my heat  
I am gonna by the light

by the light  
by the light  
by the light  
my own light  
that lights my way through the dark\*
